# About webinar

N-Materials2020 aims to become the leading annual Virtual Conference in the fields Biomaterials and Nanomaterials, Structural Materials, Electronic Materials, Material Chemistry, Materials Processing Engineering, Computational Methods of Modelling, Simulation and Prediction for Designing Materials and Structures at all length scales. This virtual conference has an elemental feature to the world distinguished motive speakers, keynote lectures, young investigators & researchers forum, e-poster presentations, oral presentations. We welcome you to join our webinar to share and gain knowledge..!!

V-Materials2020

November
11-12, 2020
GMT 07:00-14:00

Benefits
of Joining
Webinar

1) Get Certified for your Participation.
2) Reduced Costs and Affordability.
3) Global exposure to your research.
4) Learn from the Pros.
5) Extensive reach to international audience.
6) Make New Connections.
7) Wider Reach.
8) More Engaging.
9) Position yourself as the Expert.

Registration Includes

- Access to all Presentations.
- E-Certificate for Presentation and Participation.
- Access to B2B Online Meetings.
- Conference E-material.
